### WINMAU CRICKET SCORER

The Winmau Cricket Scorer designed and developed exclusively with Winmau by Crunchmedia accompanies your game of darts wherever you are with no need for chalk and duster.

With its authentic and attractive interface the application allows 2 players to play the classic game of Cricket.

You also get unlimited score roll-back/forward function (very helpful when beer is involved!) along with automatic game scoring (first up to 10).

As cricket is a rapid fire darts game this application is designed with simplicity in mind and ease of use for when you're changing places on the oche.

With Winmau's pedigree as the Worlds finest Dartboard makers for over 65 years you can be sure this application is a must for any darter no matter how often you play.

Available on the iPhone
